TARGET AUDIENCE

Dermatologists, dermatology residents, family physicians, and other healthcare professionals who treat diseases of the skin.

LEARNING OBJECTIVES

By conclusion of this live conference, participants will be able to:

- Evaluate the latest information on new and emerging therapies for common dermatologic diseases and incorporate them into clinical practice
- Assess the benefits of and develop updated strategies for using currently available and future treatment options for acne and rosacea
- Describe the efficacy/safety profiles and explain the roles of currently available and emerging biologic agents in the treatment of psoriasis
- Recognize and appropriately manage comorbid diseases and conditions in patients with psoriasis
- Implement current strategies for managing challenging pediatric dermatology issues such as atopic dermatitis and pediatric acne
- Identify and manage the signs and symptoms of dermatitis resulting from exposure to topical agents or systemic drugs/chemotherapeutic agents
- Compare and contrast the efficacy and safety of agents, devices, and techniques currently available for aesthetic and procedural dermatology applications.
- More effectively use injectable shaping agents (fillers and botulinum neurotoxins) for facial rejuvenation/restoration and body sculpting
- Examine state-of-the-art laser, light, and other energy-based technology for cosmetic and other dermatologic uses
- Discuss how existing and emerging diagnostic tools and treatments for advanced cutaneous malignancies including melanoma, CTCL, BCC and SCC can be used to improve patient outcomes

ACCREDITATION STATEMENT

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of UMDNJ-Center for Continuing and Outreach Education and Skin Disease Education Foundation, a division of Global Academy of Medical Education. UMDNJ-Center for Continuing and Outreach Education is accredited by the ACCME to provide continuing medical education for physicians.

AMA PRA CREDIT DESIGNATION STATEMENT

UMDNJ-Center for Continuing and Outreach Education designates this Live activity for a maximum of **37.25 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Associate Dean
University of Wisconsin School of
Medicine and Public Health –
Marshfield Campus

Director for the Division of Education,
Marshfield Clinic
Marshfield, WI

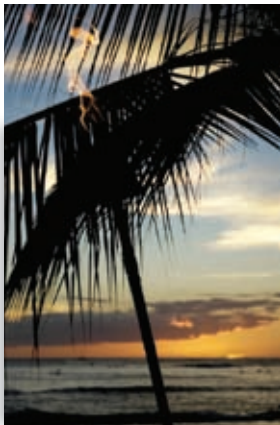

General Dermatology Module

The 50-question self-assessment program offered at the 36th Annual Hawaii

Dermatology Seminar counts towards fulfilling a portion of one of three (years 3, 6, and 10 of 10-year MOC-D cycle)

American Board of Dermatology (ABD) MOC-D self-assessment requirements. Per ABD, each self-assessment module must be at least 100 questions in length, therefore, 50 additional questions must be obtained to receive full credit for one self-assessment requirement. Please be sure to report completion of any self-assessment programs on your MOC-D table located in your ABD profile.

About the SDEF MOC-D Program: General Dermatology Module

- ▶ The 50 self-assessment questions will cover medical dermatology, pediatric dermatology, and procedural dermatology including cosmetic dermatology.
- ▶ Participants will be able to participate in the MOC program in one of three ways:
 - **MOC Live Session:** Monday, February 20, 2012 from 4-5:30 PM.
 - **MOC Online Session:** Onsite at the 36th Hawaii Dermatology Seminar: Will be available online at a designated computer station throughout the meeting days
 - **Answer questions throughout the conference:** Participants will be assigned an audience response (ARS) key pad for use throughout SDEF's 36th Hawaii Dermatology Seminar which will be used to track your answers.
- ▶ After the conclusion of the conference, the breakdown of all answers to each question will be displayed for all participants. Education related to the topic will commence by a qualified faculty member.

- ▶ Specific attention will be spent by each topic expert to discuss each self-assessment question. Discussion will highlight the correct answer, why it was correct, and why the incorrect answers were incorrect. Discussions will be evidence-based and will include references.
- ▶ Audience members will be able to compare their answer to the correct answer, and to the responses of the entire audience to each question.
- ▶ After the conclusion of SDEF's 36th Hawaii Dermatology Seminar, each enrolled audience member shall receive a certificate of participation from SDEF.
- ▶ Eight-ten weeks after the conclusion of the conference, participants will receive a transcript of the MOC-D self-assessment discussions, as well as to the audience performance of the MOC-D self-assessment questions.

MOC registration is an additional \$150 until 12/1/2011. After 12/1/2011 MOC is \$225.
