Join us for THE 2ND ANNUAL SUMMIT IN NEUROLOGY & PSYCHIATRY: BRAIN/MIND/BODY, a two-day continuing medical education conference, being held June 24-25, 2016, in Washington, DC.

THE SUMMIT IN NEUROLOGY & PSYCHIATRY provides an integrated neuropsychiatric approach for primary care physicians, neurologists, and psychiatrists. Nationally known leaders in the field will present recent advances and emerging trends in the treatment and monitoring of patients with neurologic and psychiatric disorders and diseases.

This two-day CME/CE conference features key clinical topics such as depression, headache and migraine, sleep disorders, multiple sclerosis, bipolar disorder, schizophrenia, stroke, epilepsy, substance abuse, Alzheimer’s disease, and much more.

THE SUMMIT IN NEUROLOGY & PSYCHIATRY will be of interest to both the seasoned clinician and residents. Please join us June 24-25, 2016, at the Washington Marriott at Metro Center in Washington, DC, for a rewarding educational experience. The format is informal and relaxed, and encourages a free-flowing exchange of ideas and practical solutions that are immediately useful in improving patient outcomes.

CONFERENCE CO-CHAIRS

Jonathan L. Carter, MD
Associate Professor of Neurology
Mayo Clinic College of Medicine
Scottsdale, AZ

Henry A. Nasrallah, MD
Professor and Chairman
Department of Neurology and Psychiatry
Sydney W. Souers Endowed Chair
Saint Louis University School of Medicine
St. Louis, MO

WHO SHOULD ATTEND

Physicians, residents, nurse practitioners, nurses, and physician assistants who are involved in the management and treatment of patients with neuropsychiatric disorders.

LEARNING OBJECTIVES

At the conclusion of this live activity, participants should be better able to:

- Evaluate the safety and efficacy of new and emerging therapies for multiple sclerosis
- Diagnose and determine appropriate treatment options for patients with Parkinson’s disease
- Analyze strategies for the management of Alzheimer’s disease and other types of dementia
- Individualize treatment for bipolar disorder, monitor patients for treatment efficacy, and modify existing management plans for patients with treatment-resistant bipolar disorder
- Explain guideline-concordant practices for the diagnosis and treatment of schizophrenia to better identify and manage patients with this disorder
- Formulate an evidence-based management plan incorporating recommendations for treating headache and migraine
- Describe the sleep problems that occur with depression, bipolar disorder, and other psychiatric disorders
- Implement appropriate strategies to treat patients with treatment-resistant depression
- Explain the symptoms of posttraumatic stress disorder and describe how to develop an assessment plan
- Identify the symptoms of epilepsy and list the components required to make an accurate diagnosis and to distinguish it from seizures due to other causes
- Recognize the diagnostic and treatment challenges surrounding obsessive compulsive disorder
- Review the symptoms of stroke and formulate a decision plan
PROGRAM*

THURSDAY JUNE 23, 2016
3:00 PM Early Registration

FRIDAY, JUNE 24, 2016
6:45 AM Registration
Breakfast and Visit Exhibits
