Join us at Skin Disease Education Foundation’s 40th Annual Hawaii Dermatology Seminar™

We explore the latest advances in the treatment and management of common and complex diseases of the skin, both for adults and children as well as new developments in aesthetic medicine. Our exceptional faculty will present clinically relevant information that you will find immediately useful in the care of your patients. This six-day meeting provides interactive presentations, case studies in medical dermatology, live-patient injection sessions and multiple workshops. Learn from the experts about acne, rosacea, actinic keratoses, skin cancers, psoriasis, atopic dermatitis, nonsurgical facial rejuvenation, CTCL, cutaneous vasculitis, and much more.

Skin Disease Education Foundation’s (SDEF) 40th Annual Hawaii Dermatology Seminar’s comprehensive agenda contains cutting edge, innovative and evolving issues relevant to practicing physicians and healthcare providers who treat diseases of the skin. Our scientific program has been designed to keep the clinician up-to-date on new developments within the field of dermatology.

This year we are offering these interactive workshops: Dermoscopy: Tools to Use and Patch Testing. We look forward to seeing you on The Big Island at SDEF’s 40th Annual Hawaii Dermatology Seminar, February 14-19, 2016. Don’t miss out; register today and save $70 with our second discount which ends December 1, 2015.

THIS CONFERENCE IS FOR YOU:
Dermatologists, dermatology residents, family physicians, internists, nurse practitioners, nurses, physician assistants, pharmacists and fellows will all gain important insights into the management of patients with skin diseases.

LEARNING OBJECTIVES
At the conclusion of this live conference, participants should be better able to:

• Integrate into daily practice evidence-based recommendations on new and emerging therapies for common and uncommon dermatologic diseases.
• Implement updated strategies for managing acne, rosacea, and actinic keratoses.
• Explain the role of biologic agents in the treatment of psoriasis and appropriately incorporate newer biologics into therapeutic practice.
• Describe the mechanisms of action, efficacy, and safety of the biologic agents used to treat psoriasis.
• Analyze treatment approaches for the pediatric patient with common as well as complex skin diseases.
• Incorporate the recent advances in understanding and treating pediatric dermatology issues such as atopic dermatitis and pediatric acne.
• Discuss new approaches to therapy including pathway targeted therapy in the treatment of melanoma.
• Analyze emerging treatments for lichen and onychomycosis.
• Appropriately incorporate into clinical practice one or more of the targeted treatments that act on the Hedgehog pathway in the treatment of basal cell carcinoma.
• Explain CTCL and cutaneous vasculitis and incorporate the latest therapeutic options into practice.
• Assess the role of diagnostic tools including dermoscopy and technology in diagnosis and detection of skin cancers.
• Identify the factors that are important in selecting appropriate filler agents for treating different areas of the face and targeted planar depths.
• Compare and contrast the efficacy and safety of agents, devices, and techniques currently available in aesthetic and procedural dermatology.
• Determine the appropriate nonsurgical techniques for facial rejuvenation.
• Discuss the latest recommendations for patch testing/phototesting and explain how they should be used to improve the treatment of allergic conditions.

General Dermatology Module

The self-assessment program offered at Skin Disease Education Foundation’s 40th Annual Hawaii Dermatology Seminar is approved by the American Board of Dermatology (ABD) for up to 35 MOC-D self-assessment points. Please be sure to report completion of any self-assessment programs on your MOC-D table located in your ABD profile (www.abderm.org).

About the SDEF MOC-D Program:
General Dermatology Module

- The 35 self-assessment questions will cover primarily general medical dermatology, but will also include pediatric dermatology and aesthetic and procedural dermatology.
- MOC-D Live Session: Monday, February 15, 2016 from 3:00-4:30 PM
- Discussion will highlight the correct answer, why it was correct, and why the incorrect answers were incorrect. Discussions will be evidence-based and will include references.
- Audience members will be able to compare their answer to the correct answer, and to the responses of the entire audience to each question.
- Each enrolled audience member shall receive a certificate of participation from SDEF.
- Approximately 8-10 weeks after the conclusion of the conference, participants will receive a transcript of the MOC-D self-assessment discussions, as well as to the audience performance of the MOC-D self-assessment questions.

MOC-D registration is an additional $95.00 through 12/1/2015. After 12/1/2015, MOC-D registration is $125.00
(Participants must register for the 40th Annual Hawaii Dermatology Seminar)
