Join us for this educational live meeting for primary care physicians dedicated to improving care for patients presenting with pain and pain-related symptoms.

- Common Pain Problems in Primary Care: Back Pain, Headaches and Migraines, Osteoarthritis
- TelePain Medicine from the Primary Care Perspective
- Medical Marijuana, Clinical Practice Guidelines
- Opioid Prescribing: Safe Practices, Changing Lives
- Debate: Should We Be Prescribing Opioids for Pain Management?
- Special Populations: The Inherited Patient, the Obese Patient and the Patient with a History of Substance Abuse Disorder
- Complex Regional Pain Syndrome
- Behavioral Approaches to Chronic and Acute Pain
- Update on Non-Opioid Analgesics and Adjuvants
- The Role of Naloxone
- Interventional Approaches for Pain
- Primary Care Approaches to the Unexpected Urine Drug Test
- Cancer-Related Pain: What is the PCP to Do?

PLUS! “P.E.P.” Profitability, Efficiency and Productivity Additional 3.25 CME Credits Available (Optional, separate fee required)

Register by July 14, Save up to $225

18.5 CME Credits available including Opioid REMS course

East
August 3–5, 2017
Walt Disney World Dolphin Hotel
Orlando, Florida

West
November 17–19, 2017
Hilton San Francisco Union Square

West Coast location added for 2017!
Why You Should Attend
As a primary care physician, you treat patients in pain every day. The information presented at this meeting will provide you with an opportunity to enhance your clinical care and acquire additional skills in treating patients who present with pain and pain-related symptoms. This meeting is intended to meet the clinical and educational needs of clinicians in the primary care setting and selected specialties, such as non-pain specialists who recognize the importance and challenges associated with treating patients in pain.

Who Should Attend
The Pain Care for Primary Care meeting is intended for physicians in family practice, internal medicine, neurology, and rheumatology, as well as advanced practice nurses and physician assistants working in pain or primary care.

Educational Objectives
Upon completion of this meeting, participants will be able to:
1. Recognize the competencies and skill sets required to provide quality pain care.
2. Develop strategies for handling common and complex pain care situations.
3. Integrate best practices grounded on evidence-based guidelines and recommendations.
4. Assess changes in the care and outcomes of your patients with pain-related conditions.

Continuing Education
The Pain Care for Primary Care course will offer continuing education (CME/CE) credit for physicians and nurses. Credit will be awarded for those sessions attended and evaluated. Successful completion requires that participants register for the meeting, attend, participate, and complete an online evaluation. Participants will receive their certificates immediately after they submit their evaluations online.

Family Physicians
Application for CME credit has been filed with the American Academy of Family Physicians. Family physicians may receive a maximum of 16.5 contact hours for completing this program.

Physicians
This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American Pain Society and Global Academy for Medical Education. The American Pain Society is accredited by the ACCME to provide continuing medical education for physicians.

The American Pain Society designates this live activity for a maximum of 16.5 AMA PRA Category 1 Credits™. Physicians should claim credit commensurate with the extent of their participation in the activity.

Physician Assistants
AAPA accepts certificates of participation for educational activities certified for AMA PRA Category 1 Credits™ from organizations accredited by ACCME or a recognized state medical society. Physician assistants may receive a maximum of 16.5 hours of Category 1 credit for completing this program.

Nurses
This activity has been submitted to the American Association of Neuroscience Nurses for approval to award contact hours. The American Association of Neuroscience Nurses is accredited as an approver of continuing nursing education by the American Nurses Credentialing Center’s Commission on Accreditation. Nurses may receive a maximum of 16.5 contact hours for completing this program.

There are no prerequisites required of this activity.

Opioid REMS Course
The American Pain Society and CO*RE will present a 2-hour session (2.00 additional CME credits) incorporated into the regular PCPC course agenda on Risk Evaluation and Mitigation Strategies (REMS) for Extended-Release and Long-Acting Opioids.

Topics to be discussed during the session include the following:
• The initial assessment of the pain patient
• Developing a treatment plan
• Assessing risk for abuse
• Ongoing reassessment of the patient.

Continuing Education Credit for the REMS course will be offered separately from the PCPC course. For complete REMS course objectives, accreditation statements and information regarding CE credit for the REMS course, please visit http://pcpc-cme.com/site/REMS_Course.aspx

What Your Colleagues say About Pain Care for Primary Care

“One of the best seminars I have attended in my 20-plus years of practice.”
- JP, MD

“Possibly the best conference I have attended on any subject. I didn’t want to miss a minute. Great location and facilities. Efficiently organized & highly recommended!”
- A.B., DO

“Information was interesting and useful for practice. I can’t wait to implement some strategies in my treatment plans - and to attend next year!”
- S.H., FNP-C

“This conference has been unique and insightful. Great selection of topics and quality speakers.”
- J.L., MD
