

Due to the rapid progression of COVID-19 (coronavirus) and our desire to protect the health, safety and freedom of movement of our attendees, faculty and industry supporters, **we have rescheduled the 7th Annual Digestive Diseases: New Advances Conference to July 17-18, 2020** at the Renaissance Arlington Capital View Hotel in Arlington, VA.

Here are some key next steps:

Hotel:

- Please contact the Renaissance to change your reservation from the March dates to the July dates. The toll-free number is: 1-800-228-9290. We recommend you do this more than 72 hours in advance of your original check-in date to avoid any potential penalties.

Your Flight:

- Remember to notify your airline, as many airlines are waiving change fees and giving credits for future travel

Your Registration Fee:

- With your permission, we will automatically credit your registration fee to the **rescheduled July 17-18** conference. If this is acceptable to you, you do not need to do anything, however if you would prefer to have your registration fee refunded please support@medscapelive.com to notify us.

We thank you for understanding the difficulty of this decision and for your commitment to improving care of patients with digestive diseases. We deeply appreciate your contributions to this community and are committed to continued collaboration.

Should you have any questions or concerns please email us support@medscapelive.com.

Hope to see you in July!

Sincerely,

Nikolaos Pysropoulos MD, PhD, MBA and MedscapeLIVE!
